Наукова віза та її переваги

Цей тип візи полегшує в'їзд науковцям з третіх країн на територію ЄС з метою проведення наукових досліджень.

Пакет наукової візи складається з Директиви ЄС (2005/71/ЄС) та двох рекомендацій (2005/762/ЄС та 2005/761/ЄС). Цей пакет має на меті допомогти науковцям отримати право на в'їзд, проживання та наукову роботу у країнах-членах ЄС. Він створений для полегшення процесу отримання цього дозволу для науковців, які бажають проводити дослідження в ЄС протягом 3-х місяців або більше.

Деталі про пакет наукової візи можна знайти на сайті EURAXESS (англійською мовою):

<http://ec.europa.eu/euraxess/index.cfm/services/scientificVisa>

EURAXESS – це дослідна ініціатива, спрямована на розвиток досліджень в Європі та мобільність науковців. На сайті також можна знайти лінки до більше, ніж 200 сервісних центрів EURAXESS, які надають безкоштовну допомогу науковцям, коли останні їдуть з однієї країни до іншої.
