CONTENTS

- A. A. Baskova, G. A. Voropayev*
The structure of the vortex nonisothermal flow at the initial section of the pipe with transient Reynolds numbers 117
- I. M. Gorban*
Modeling of sandpit dynamics in river flows 132
- V. L. Karlash*
Analysis of forced vibration of piezoceramic transducers at a non-uniform electric loading 160
- V. V. Meleshko, A. A. Gourjii T. S. Krasnopolskaya*
Mixing of viscous fluid in rectangular microchannels 191
- A. F. Nazarenko, T. M. Sliozberg, A. A. Nazarenko*
Estimating the force and energy characteristics of acoustic oscillations generated by a counter-flow hydrodynamic radiating system (the second approximation) 223
- I. G. Nesteruk, B. D. Shepetyuk*
Shapes of steady slender axisymmetric ventilated cavities in ponderable liquid 233
