CONTENTS

<i>A. I. Bileush, V. L. Fridrihson, O. I. Krivonog, V. V. Krivonog</i> Studying the “soil-geotextiles” construction as a foundation cushion for enhancement of strength of weak soils	249
<i>V. V. Boiko, A. A. Kuzmenko, O. M. Chala, T. V. Hlevnyuk, N. I. Zhukova</i> Studying the effective and seismic safe parameters of imploding works in quarries under the conditions of karsted rock mass	268
<i>V. A. Voskoboinick, A. A. Voskoboinick, A. V. Voskoboinick, V. M. Stepanovich, I. A. Hyzha</i> Vortex motion inside the hole of a complex geometry	284
<i>I. N. Gorban, A. S. Kotelnikova, V. I. Nikishov, G. P. Sokolovsky</i> Formation of slope angle of a noncohesive soil in a two-dimensional case . .	302
<i>N. F. Dimitrieva</i> Flows around a 2D horizontal wedge in a steadily stratified liquid	316
<i>S. I. Kril</i> The energy model of gas-liquid flows in airlifts	334
<i>V. N. Semenenko, O. I. Naumova</i> Some ways of hydrodynamic fin application for underwater supercavitating vehicles	355
