HYDRODYNAMICS AND ACOUSTICS

ISSN 2616-6135 ◊ e-ISSN 2616-8545 ◊ IS PUBLISHED SINCE 2018

State Registration Certificate: Series KB, no. 22669-12569PR, April, 26 2017

Printed Media Identifier: R30-03437

2024 ◊ VOLUME 3(93) ◊ ISSUE 2

CONTENTS

- A. O. Borysyuk*
An approximate method to find a hemodynamic significance of a severe larger coronary artery pathologic tortuosity 115
- V. A. Voskoboinick, O. A. Voskoboinick, A. G. Kharchenko, A. V. Voskoboinick, A. S. Korolyova, I. A. Nikitin*
Interaction of surface gravity waves with vertical permeable breakwaters . . . 149
- V. V. Moroz, V. O. Kochin, V. M. Semenenko, Bu-Geun Paik*
Theoretical and experimental study of dynamics of supercavitating vehicles with cone cavitators 170
- V. V. Yakovlev, V. O. Tkachenko, V. V. Bondar, T. B. Honcharenko*
Wave load on the elements of offshore structures in the shallow water zone.
Part 1 198
