CONTENTS

- V. M. Sirenko, T. Ya. Batutina, V. N. Oliynik*
The effect of the acoustoelastic interaction in forming the acoustic loads
under the fairing of the rocket head 223
- V. L. Fridrikhson, O. I. Kryvonoh, V. V. Kryvonoh, L. S. Orlova*
Predicting the mechanical colmatation of nonwoven geotextiles 245
- O. V. Shekhovtsov*
Quasi-three-dimensional modeling of the normal flapping flight
of an elastic membrane ornithopter 253
- I. M. Gorban, A. S. Korolova, V. A. Voskoboinick, V. M. Vovk*
Solitary wave dynamics and vortex fields near submerged slotted barriers . 283
- I. G. Nesteruk*
Special-shaped low-drag laminar hulls to increase speed and improve the
commercial efficiency of floating vehicles 311
