CONTENTS

<i>O. P. Zhuk, V. D. Kubenko, Y. O. Zhuk</i> On the acoustic radiation force calculation for rigid spherical particle located in the fluid-filled cylindrical tube with rigid or elastic walls	5
<i>T. Ya. Batutina, V. N. Oliynik</i> The acoustic field under the fairing of the rocket head as a function of the system physical parameters	28
<i>Yu. I. Voitenko, O. Yu. Voitenko, A. M. Pasichnyk</i> On the caliber of the shaped charge and the state of matter in the impact center when penetrating a dense barrier	41
<i>T. S. Krasnoplolskaya, Yu. V. Gorskiy</i> Forced waves and cross-waves on a liquid surface in a partially filled “singing wineglass”	52
<i>Yu. M. Savchenko, V. M. Semenenko, G. Yu. Savchenko, O. I. Naumova</i> Experimental study and computer simulation of dynamics of supercavitating bodies penetrating water at small angles to the free surface	75
